Professional Summary

Backend-focused Python Developer with 2+ years of experience building and maintaining production systems, RESTful APIs, and microservices using Python, Django, FastAPI, PostgreSQL, Docker, and AWS. Experience working with JWT authentication, CI/CD pipelines, Git-based workflows, and cloud deployments across distributed backend services. Built PostgreSQL-backed API services with production deployment workflows and improved application performance by up to **35%** through frontend and backend optimization. Comfortable working in fast-moving Agile/Scrum teams with a focus on clean abstractions, debugging, reliable deployments, and AI-assisted development workflows.

Professional Experience

Software Engineer

Oct 2023 – Mar 2026

MANDS Consulting

Noida, UP

- Engineered production-grade **RESTful APIs** using **Python**, **FastAPI**, **Node.js**, and **Express.js**, implementing JWT-based authentication and serving **10K+ daily requests** with **99.9% uptime**.
- Built and maintained **CI/CD pipelines** using **GitHub Actions** and **Docker**, reducing release cycle time by **40%** while supporting deployment workflows across production services.
- Designed backend services backed by **PostgreSQL** and authentication workflows with request validation, RBAC (Role-Based Access Control), and rate limiting across distributed services.
- Collaborated using **Git-based workflows**, pull requests, and Agile/Scrum delivery processes while maintaining a **95% sprint completion rate** across multiple production releases.
- Architected and deployed **React** and **Next.js** applications with SSR/SSG, reducing initial page load time by **35%** through code splitting, lazy loading, and frontend optimization techniques.

Projects

ONESPOT – Video Upload & Management Platform | *Python, FastAPI, PostgreSQL, AWS S3, Microservices*

- Implemented a **microservices architecture** using **FastAPI** to handle video metadata processing, authentication workflows, and access control for a **1000+ user** platform.
- Designed and maintained **PostgreSQL**-backed services for upload management workflows, request validation, authenticated access patterns, and distributed backend communication.
- Built cloud-based upload services with **AWS S3**, chunked file uploads, upload progress tracking, and real-time notifications across asynchronous processing workflows.
- Improved platform reliability through secure authentication flows, validation pipelines, and backend optimization, reducing session drop-offs by **15%**.

Braided – AI Chat Application | *Next.js, TypeScript, WebSockets, Redux Toolkit, TanStack Query, Tailwind CSS*

- Built a real-time chat interface using **WebSockets** and server-sent events with support for message streaming, typing indicators, and session-based communication workflows.
- Integrated **TanStack Query** for server-state management with caching, background refetching, and stale-time strategies to reduce redundant API traffic.
- Designed a **Redux Toolkit** state architecture with persistent storage and chat history management across multiple user sessions.
- Applied virtualized rendering and debounced input handling to support **1000+ messages** without UI lag across responsive client environments.

Technical Skills

Languages: Python, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Backend: Django, Django REST Framework (DRF), FastAPI, Node.js, Express.js, RESTful APIs, Microservices, JWT Authentication, Django ORM, SQLAlchemy, WebSockets

Databases: PostgreSQL, MongoDB, SQL Server, Query Optimization, Database Schema Design

Cloud & DevOps: AWS (S3, EC2, RDS), Docker, GitHub Actions, CI/CD Pipelines, Vercel, Netlify, Unicorn

Tools & Testing: Git, GitHub, Postman, Swagger/OpenAPI, Jest, React Testing Library, Chrome DevTools, Agile/Scrum, AI-assisted development workflows

Frontend: React.js, Next.js, Redux Toolkit, TanStack Query, Tailwind CSS, Material-UI, Responsive Design

Education

Maharishi Markandeshwar Institute of Technology

Bachelor of Technology – Computer Science, Major in Software Engineering

Ambala, Haryana

Graduated: June 2023
